Here's why we love it.

We don't just accept Afterpay - we believe in it.

It's easy as pie... charts.

Customers manage payments within the Afterpay app. Not every purchase is approved. Direct customer questions to Afterpay Customer Support.

How customers use it.

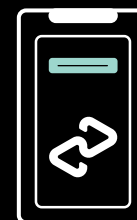

You process an Afterpay Card transaction the exact same way you would process a Mastercard or Visa transaction [selecting eftpos in your POS].

1. Scan the items into your point of sale.

2. Select eftpos as the payment method.

3. The customer taps their Afterpay Card to your card terminal to pay.
